Sainsbury's product guidance for VEGETARIANS avoiding GLUTEN

About this list

This list contains Sainsbury's own brand products that are suitable for a vegetarian diet and for people avoiding gluten. As there is currently no legal, common definition for the word vegetarian, Sainsbury's policy is to label products suitable for vegetarians according to the Food Standard Agency's guidelines for lacto-ovo vegetarians i.e. Do not eat any meat, poultry, fish or shellfish, but they eat milk, milk products and eggs.

Our suppliers and product technologists have ensured that all products contained in this list do not contain any ingredients that are, or are made from, ingredients derived from animals that have died or have been slaughtered. The risk of these products being contaminated with animal products at any stage of the supply chain or production process has also been effectively managed. Products containing eggs and milk are regarded as part of the vegetarian diet and therefore are contained in this list.

This products in this list have also been made without ingredients containing gluten. Our suppliers and product technologists have ensured that each product **does not** include gluten-containing grains (wheat, rye, barley, spelt, kamut or oats) or ingredients derived from these gluten-containing grains in the recipe and the risk of contamination with these gluten-containing grains has been effectively managed.

Please note that the products in our freefrom range all contain less than 20 parts per million (ppm) gluten and we can guarantee this – this is our specialist gluten-free brand. We cannot guarantee that all the other products in this list, outside of the freefrom range contain less than 20ppm gluten but they do not deliberately contain gluten and risk of cross contamination with gluten has been effectively managed.

Important information about breakfast cereals: The own-brand breakfast cereals listed are suitable for a gluten-free diet even though they contain barley malt extract and the allergy advice box states "contains gluten". This is because they have been tested for gluten and only contain a very small amount of gluten (from the barley malt extract) which is at a level that most coeliacs can tolerate.

February 2012

Using the list

This list **does not** include products from the **In Store Bakery**, the **service deli**, the **hot food counters**, **fresh meat** and **fresh fish counters**, Sainsbury's **café** or the **self-service salad bar**. This is because we advise people with allergies to avoid all of the products sold in these areas due to the potential risk of cross contamination caused by the open food handling.

Within the list, the products are divided by categories e.g. Fresh meal solutions, Dairy, Biscuits etc.

These categories are then divided into sub-categories. So in **Fresh meal solutions** you will find Classic meals, Inspired to Cook, Fresh Italian meals, Fresh Indian meals etc. Following each sub-category there is a four digit number in brackets, e.g. Fresh Italian meals (0015). This is the department code that is unique to the sub-category, this code may help the Sainsbury's colleague in store find the product for you.

The *first column* of the list contains some numbers, used internally by Sainsbury's, called **SKUs**. Each product has a unique SKU number and this may help the Sainsbury's colleague in store or on the customer service desk help you identify the product you are looking for.

The *second column* contains the **barcode** that appears on pack.

The *third column* is the product description. This is the name of the product that appears on the front of pack and it also includes the weight of the product.

How to identify the exact product from the list, when you're doing your shopping:

Sainsbury's sub-brands and abbreviations used in the list:

basics. This is a wide range of Sainsbury's quality food and non-food products at surprisingly low prices, helping budget conscious shoppers lower the cost of their weekly shop. Over 200 of our basics products cost 50p or less. The basics range conforms to our high standards of quality, health and integrity which is why basics foods are free from hydrogenated fats and artificial flavour enhancers.

Taste the difference (abbreviated in the list to Ttd). This is Sainsbury's premium offering of food & drink, giving customers a wide range of high quality, fantastic tasting products. Our teams take time, care & attention to ensure we source the best ingredients & recipes from around the world, to deliver an outstanding taste experience.

be good to yourself (abbreviated in the list to bgty). This is Sainsbury's healthier option range where we have developed great tasting everyday essential products which are better for you because we have controlled the levels of fat, saturated fat, sugar and salt without compromising on taste. All products will either be less than 3% fat or reduced fat (containing at least 30% less fat than the standard equivalent product).

freefrom. This is Sainsbury's brand of products that have all been specially made without wheat or gluten and most are also made without dairy. Products are suitable for coeliacs and people with a wheat allergy. Most are also suitable for people with milk allergy or lactose intolerance.

Sainsbury's SO Organic. This is Sainsbury's range of products where we have developed an organic alternative to most mainstream products. Products are made without the use of artificial fertilisers and limited use of pesticides. Farming practices aim to encourage wildlife and promote optimum soil health. Meat and animal derived products are from farms working to the highest standards of animal welfare. All products have been certified by an organic certification body such as the Soil Association, all whom conform to the standards laid down by the UK and EU government.

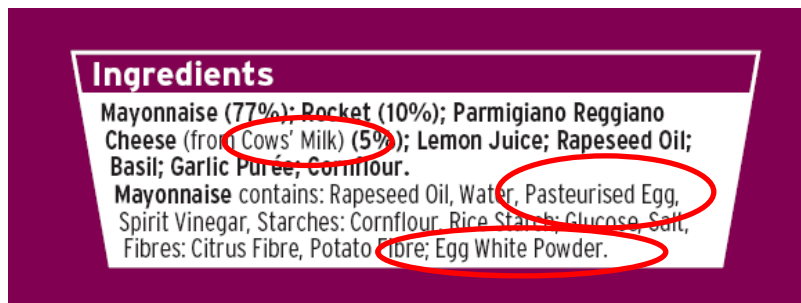

Kids. This is Sainsbury's range for kids, giving healthy choices that mums trust and children enjoy. The range is nutritionally balanced and designed especially for children between 4 and 8 years of age, making it a convenient and tasty way to eat healthily. Every product meets Sainsbury's strict standards on salt, sugar and saturated fat and is taste tested and approved by children.

How to read Sainsbury's labels

All pre-packed foods that contain an allergen in the recipe at any level name this allergen in the ingredients list. **So always check the ingredients list FIRST for any allergens.**

E.g. this product is not suitable for people avoiding egg or milk.

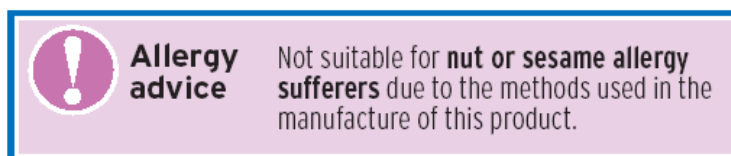

To make it easier for customers to quickly and easily spot allergens in the ingredients lists, it is Sainsbury's policy to have an additional box on the back of pack highlighting the presence of the major allergens listed in the EU labelling legislation. This box usually appears below the ingredients panel and is headed **Allergy Advice**. If the allergen is present in the recipe the text in the box states "**Contains**" followed by whichever of the following allergens are present: Peanuts, Nuts, Sesame, Shellfish, Fish, Milk, Egg, Celery, Mustard, Wheat Gluten, Rye Gluten, Barley Gluten, Oat Gluten, Spelt Gluten, Kamut Gluten, Soya, Sulphites, molluscs. The background to this box is pink (except when the label is black and white).

E.g. The allergy advice box below indicates that the product contains milk, wheat and barley in the recipe

Where the supplier and the Sainsbury's technologist agree that there is a real risk of a product having accidentally come into contact with allergens that are not in the recipe and that the risk cannot be managed and would put customers' safety at risk, the following warning phrase is used in the **Allergy Advice box**: **Not suitable for (name of allergen e.g. milk) allergy sufferers due to the methods used in the production of this product.** Where space on the label is very limited we sometimes have to use: **Not suitable for (name of the allergen e.g. milk) allergy sufferers.**

E.g. the allergy advice box below indicates that the product is at risk of being contaminated with nuts or sesame.

Please note that both statements above mean exactly the same; the only difference is the amount of space available on the label for the message

February 2012

How to read Sainsbury's labels

The following products are considered by Sainsbury's to be obviously suitable for vegetarians and are therefore exempt from vegetarian and/or vegan labelling:

Pre-packed fruit, vegetables and salad vegetables
Cooking oils
Eggs
Plain (not flavoured) Butter, Milk and Cream
Plain (unseasoned flours)
Salt, Pepper, Herbs, Spices and Curry Powders
Dried Fruit and Plain Nuts
Non-stuffed olives, vinegar and plain pickles (i.e. those not in sauces).
Plain Rice
All Plain Fresh, Dried, Canned and Frozen Fruit and Vegetables.
Tea, Coffee and Plain Water
Plain dried Pulses.

All other products contained in the following list are suitable for vegetarians and will be labelled on the back or front of pack with one of the logos below:

February 2012

Common ingredients to avoid if you are avoiding gluten

This list isn't exhaustive and there may still be other sources of gluten you should avoid - always check the ingredients list and allergy advice box.

Flour (including wheat flour, rye flour, barley flour or oat flour)
Semolina
Durum wheat
Wheat bran
Oat bran
Wheat starch
Modified wheat starch
Bulgur wheat
Cous cous
Liquorice (cereal usually added to give liquorice root flexibility)
Wheat rusk
Barley groats
Blocked barley
Pot barley
Pearl barley
Husked barley
Beer & lager
Porridge oats
Oatmeal
Soy sauces
Einkorn – type of wheat
Emmer – type of wheat
Rye
Spelt

If you have coeliac disease, the following ingredients are safe for you:

There are certain ingredients which are made from gluten-containing cereal but the grain has been processed in such a way that all the gluten has been removed. The European Commission has worked with the European Food Safety Authority (EFSA) to confirm that these ingredients are safe for people with coeliac disease.

- glucose syrups derived from wheat or barley including dextrose
- wheat-based maltodextrins
- distilled ingredients made from cereals that contain gluten. I.e. alcoholic spirits such as whiskey

February 2012

Categories that ARE suitable for vegetarians avoiding gluten but individual products are not included in this list

ALL our own brand plain and flavoured water

ALL our own brand soft drinks (presses, bottled and canned carbonated drinks, energy and isotonic drinks, mixers, squash, high juice, fruit juice cartons)

ALL our own brand dried fruit

ALL our own brand cheese (hard cheese, soft cheese, recipe cheese, cottage cheese, continental cheese, grated cheese) EXCEPT for breaded cheeses

ALL our own brand coffee

ALL our own brand tea (including fruit and herbal)

ALL our own brand fresh and frozen plain produce (fruit and vegetables)

ALL our own brand prepared fruit

ALL our own brand fresh cream (including fresh flavoured creams, crème fraiche, soured cream)

ALL our own brand fresh and longlife milk

ALL our own brand eggs

ALL our own brand salt, herbs and spices

ALL our own brand fats and spreads

ALL our own brand plain packet rice

ALL our own brand sugar

ALL our own brand wine and spirits

Nutrition information for vegetarians

If you are a Lacto-ovo vegetarian (that is, you are avoiding all meat, poultry and fish, meat-derived products such as gelatine, but including dairy products and eggs), then following a healthy balanced diet should be relatively easy. If planned well. You should try to include two portions of meat or fish alternatives in order to obtain enough protein, B vitamins and essential fats. Good alternatives include Quorn™, tofu, nuts, beans and lentils. Dairy products and eggs are important sources of the essential amino acids – those amino acids that can't be made by the body and need to be obtained from food. Other sources include, lentils, beans, soya, nuts, seeds and grains, such as wheat, barley, oats, rice and quinoa. However, in order to gain all the essential amino acids from these plant sources you should try and combine plant sources in the same meal. E.g. Beans on toast, rice with dahl.

Omega 3 fats: The best source of these is oily fish. If you are avoiding fish, you should try and include plant sources of these Essential Fatty Acids in your diet everyday, as the body is not able to use the plant source of omega 3 fatty acids as efficiently as those from fish. Vegetarian sources of omega 3 include linseed oil, rapeseed oil, flaxseed, walnut and soya oil, green leafy vegetables, wholegrain cereals and pumpkin seeds.

Iron: If you are excluding red meat from your diet, which is one of the richest sources of iron, then you should try and include eggs (not suitable for vegans or lacto-vegetarians), dark leafy green vegetables such as sprouting broccoli or kale, wholemeal bread, apricots, lentils, pulses and fortified breakfast cereals. However, iron from vegetable sources is not as well absorbed by the body as iron derived from red meat. One way of increasing the efficiency of iron absorption is to eat the food with a good source of vitamin C. For example, have a glass of orange juice with your breakfast cereal.

Nutritional information for people avoiding gluten

You can get all the nutrients you need from a gluten free diet as long as you swap staple foods made from wheat and other gluten-containing grains, for wholegrains and nutritious starchy carbohydrates. This includes rice, corn (maize), polenta (cornmeal), buckwheat, millet, quinoa, potato, sweet potato, fortified breakfast cereals (i.e. cornflakes and rice crispies). Gluten-free bread, rice, potatoes, gluten-free pasta and other starchy foods should be included at each meal and provide the bulk of your calories each day.

It can often be hard finding alternative sources of fibre to whole-wheat on a gluten free diet, so here are some tips to increasing your fibre intake: you should try to include foods in your diet that are high in fibre such as brown rice, wild rice, beans and lentils, and more fruit and vegetables. If you have been diagnosed with coeliac disease or IBS, check with your GP or dietitian before increasing your fibre intake.
