Product guidance for people avoiding MILK (including lactose)

This list contains Sainsbury's own brand products that are suitable for people avoiding cows' milk and milk from other mammalian species such as sheep, goat and buffalo. Our suppliers and product technologists have ensured that each product **does not** include milk or ingredients derived from milk in the recipe and the risk of contamination with milk has been effectively managed.

Using the list

This list **does not** include products from the **In Store Bakery**, the **service deli**, the **hot food counters**, **fresh meat** and **fresh fish counters**, Sainsbury's **café** or the **self-service salad bar**. This is because we advise people with allergies to avoid all of the products sold in these areas due to the potential risk of cross contamination caused by the open food handling.

Within the list, the products are divided by categories e.g. Fresh meal solutions, Dairy, Biscuits etc.

These categories are then divided into sub-categories. So in **Fresh meal solutions** you will find Classic meals, Inspired to Cook, Fresh Italian meals, Fresh Indian meals etc. Following each sub-category there is a four digit number in brackets, e.g. Fresh Italian meals (0015). This is the department code that is unique to the sub-category, this code may help the Sainsbury's colleague in store find the product for you.

The *first column* of the list contains some numbers, used internally by Sainsbury's, called **SKUs**. Each product has a unique SKU number and this may help the Sainsbury's colleague in store or on the customer service desk help you identify the product you are looking for.

The *second column* contains the **barcode** that appears on pack.

The *third column* is the product description. This is the name of the product that appears on the front of pack and it also includes the weight of the product.

How to identify the exact product from the list, when you're doing your shopping:

Sainsbury's sub-brands and abbreviations used in the list:

basics. This is a wide range of Sainsbury's quality food and non-food products at surprisingly low prices, helping budget conscious shoppers lower the cost of their weekly shop. Over 200 of our basics products cost 50p or less. The basics range conforms to our high standards of quality, health and integrity which is why basics foods are free from hydrogenated fats and artificial flavour enhancers.

Taste the difference (abbreviated in the list to Ttd). This is Sainsbury's premium offering of food & drink, giving customers a wide range of high quality, fantastic tasting products. Our teams take time, care & attention to ensure we source the best ingredients & recipes from around the world, to deliver an outstanding taste experience.

be good to yourself (abbreviated in the list to bgty). This is Sainsbury's healthier option range where we have developed great tasting everyday essential products which are better for you because we have controlled the levels of fat, saturated fat, sugar and salt without compromising on taste. All products will either be less than 3% fat or reduced fat (containing at least 30% less fat than the standard equivalent product).

freefrom. This is Sainsbury's brand of products that have all been specially made without wheat or gluten and most are also made without dairy. Products are suitable for coeliacs and people with a wheat allergy. Most are also suitable for people with milk allergy or lactose intolerance.

Sainsbury's SO Organic. This is Sainsbury's range of products where we have developed an organic alternative to most mainstream products. Products are made without the use of artificial fertilisers and limited use of pesticides. Farming practices aim to encourage wildlife and promote optimum soil health. Meat and animal derived products are from farms working to the highest standards of animal welfare. All products have been certified by an organic certification body such as the Soil Association, all whom conform to the standards laid down by the UK and EU government.

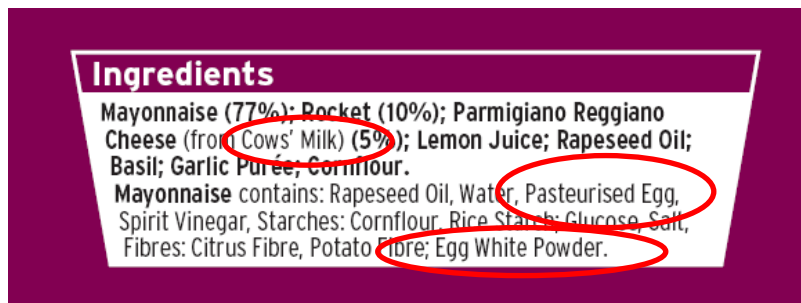

Kids. This is Sainsbury's range for kids, giving healthy choices that mums trust and children enjoy. The range is nutritionally balanced and designed especially for children between 4 and 8 years of age, making it a convenient and tasty way to eat healthily. Every product meets Sainsbury's strict standards on salt, sugar and saturated fat and is taste tested and approved by children.

How to read Sainsbury's labels

All pre-packed foods that contain an allergen in the recipe at any level name this allergen in the ingredients list. ***So always check the ingredients list FIRST for any allergens.***

E.g. this product is not suitable for people avoiding egg or milk.

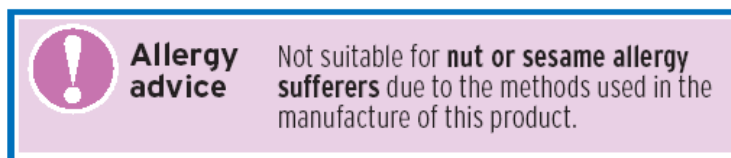

To make it easier for customers to quickly and easily spot allergens in the ingredients lists, it is Sainsbury's policy to have an additional box on the back of pack highlighting the presence of the major allergens listed in the EU labelling legislation. This box usually appears below the ingredients panel and is headed **Allergy Advice**. If the allergen is present in the recipe the text in the box states "**Contains**" followed by whichever of the following allergens are present: Peanuts, Nuts, Sesame, Shellfish, Fish, Milk, Egg, Celery, Mustard, Wheat Gluten, Rye Gluten, Barley Gluten, Oat Gluten, Spelt Gluten, Kamut Gluten, Soya, Sulphites, molluscs. The background to this box is pink (except when the label is black and white).

E.g. The allergy advice box below indicates that the product contains milk, wheat and barley in the recipe

Where the supplier and the Sainsbury's technologist agree that there is a real risk of a product having accidentally come into contact with allergens that are not in the recipe and that the risk cannot be managed and would put customers' safety at risk, the following warning phrase is used in the **Allergy Advice box**: **Not suitable for (name of allergen e.g. milk) allergy sufferers due to the methods used in the production of this product.** Where space on the label is very limited we sometimes have to use: **Not suitable for (name of the allergen e.g. milk) allergy sufferers.**

E.g. the allergy advice box below indicates that the product is at risk of being contaminated with nuts or sesame.

Please note that both statements above mean exactly the same; the only difference is the amount of space available on the label for the message.

Common ingredients to avoid if you have a milk allergy

This list isn't exhaustive and there may still be other sources of milk you should avoid - always check the ingredients list and allergy advice box.

Cows' milk
Goats' milk
Sheeps' milk
Buffalo milk
Skimmed milk powder
Non-fat milk solids
Milk protein
Milk solids
Casein
Caseinate
Sodium caseinate
Hydrolysed casein
Lactose
Cream
Ice-cream
Butter
Butter oil
Cheese
Cream cheese
Whey
Hydrolysed whey
Whey powder
Whey syrup sweetener
Ghee (unless it is made purely from vegetable oil)
Buttermilk
Crème fraiche
Fromage frais
Yogurt
Curd
Quark
Lactoalbumin
Lactoglobulin
Lactic acid (E270)

Other mammalian milks, such as goats', sheeps' and buffalo milk are not recommended as the proteins are very similar to cows' milk proteins and likely to cause an allergic reaction.

Products that ARE suitable for people avoiding milk but individual products are not included in the list

ALL our own brand plain and flavoured water
ALL our own brand soft drinks (presses, bottled and canned carbonated drinks, energy and isotonic drinks, mixers, squash, high juice, fruit juice cartons)

ALL our own brand flour
ALL our own brand plain packet rice
ALL our own brand plain dried pasta
ALL our own brand sugar
ALL our own brand beer, lager, wine, spirits
Salt

Nutritional information

Excluding milk from the diet can potentially lead to inadequate intake of certain nutrients including some B vitamins and especially calcium. Alternative sources of calcium include canned fish such as sardines and salmon where the bones are eaten, fortified soya drinks and soya products, fortified cereals and bread, dark green leafy vegetables and pulses. Calcium from some of these sources (eg pulses and cereals) is less well absorbed than from milk and dairy so you may need to take in larger amounts.

Sources of further information

If you have any queries about this list or the products contained in it please contact Sainsbury's **Careline 0800 636 262**.

If you would like more information about allergies and intolerances Sainsbury's would recommend either of the charities below:

The Anaphylaxis Campaign is a national charity launched in 1994 to raise awareness of severe allergies, particularly food allergy. The Campaign maintains a regular dialogue with the UK food industry, prominent medical figures and the Food Standards Agency. Newsletters, fact sheets and product alert bulletins are sent to the Campaign's 8,000 members, the majority being the parents of children with severe allergy. There is a telephone helpline and a website.
